## STOP PERSISTENT ACNE

Destroy The Active Acne Bacteria Where It Starts. Enjoy Clear, Healthier Skin.

Exfoliate with Alpha-Hydroxy

Exfoliate with Alpha-Hydroxy

Acne is a common skin condition that affects millions of people. It is caused by a combination of factors, including genetics, hormones, and bacteria. The active acne bacteria, *C. acnes*, is the primary cause of acne.

Alpha-Hydroxy Acids (AHAs) are a group of chemical exfoliants that help to remove dead skin cells and unclog pores. They are effective in treating acne by destroying the active acne bacteria where it starts.

We, in the  
 House of Representatives,  
 congratulate  
 Kapotid  
**ERAÑO G. MANALO**

for Iglesia ni Cristo's outstanding growth  
 under his leadership as he marks the  
 44th anniversary of his appointment as its

## EXECUTIVE MINISTER.

The House fully recognizes and honors  
 the Iglesia ni Cristo for sustaining its  
 outreach work as a force for national unity  
 and discipline—and in unifying peace and  
 moral renewal for all Filipinos. Iglesia ni  
 Cristo has touched and enriched countless  
 Filipino lives here and in various parts of the  
 world—a testament to the grandeur of its  
 evangelical leadership.

Our heartfelt congratulations!

**SPEAKER JOSE DE VENECIA**

on behalf of the  
 House of Representatives

Yes, we also have **PMS!**

### An eco-torchbearer

By [Name] and [Name]

When it comes to environmental protection, the Philippines has a long history of being a torchbearer. From the early days of the Philippine Revolution, when the people fought against the Spanish colonial rule, to the present day, when the people are fighting against the environmental degradation caused by the government and the private sector, the Philippines has always been at the forefront of the environmental movement.

One of the most notable examples of this is the case of the Philippine Revolution. The people of the Philippines fought against the Spanish colonial rule for over three centuries. During this time, the people of the Philippines were not only fighting for their freedom, but they were also fighting for the preservation of their environment. The people of the Philippines were aware of the fact that the environment was an integral part of their culture and their way of life, and they were determined to protect it.

Another example of this is the case of the Philippine Revolution. The people of the Philippines fought against the Spanish colonial rule for over three centuries. During this time, the people of the Philippines were not only fighting for their freedom, but they were also fighting for the preservation of their environment. The people of the Philippines were aware of the fact that the environment was an integral part of their culture and their way of life, and they were determined to protect it.

Today, the Philippines is still a torchbearer of environmental protection. The people of the Philippines are still fighting for the preservation of their environment, and they are still at the forefront of the environmental movement. The people of the Philippines are aware of the fact that the environment is an integral part of their culture and their way of life, and they are determined to protect it.

### Philippine Pediatric Society

#### INFOBOX

## CHRONIC COUGH

By [Name] and [Name]

Chronic cough is a common problem in children. It is defined as a cough that lasts for more than four weeks. The causes of chronic cough in children are many, and they can be difficult to diagnose. The most common causes of chronic cough in children are asthma, allergies, and infections. However, there are also other causes of chronic cough in children, such as gastroesophageal reflux disease (GERD) and vocal cord dysfunction.

The diagnosis of chronic cough in children can be challenging. The doctor will usually start by taking a history of the cough and performing a physical examination. They may also order some tests, such as a chest X-ray or a pulmonary function test. Once the cause of the cough has been identified, the doctor can then prescribe the appropriate treatment.

The treatment of chronic cough in children depends on the cause. If the cough is caused by asthma, the doctor will usually prescribe an inhaled corticosteroid. If the cough is caused by allergies, the doctor will usually prescribe an antihistamine. If the cough is caused by an infection, the doctor will usually prescribe an antibiotic. If the cough is caused by GERD, the doctor will usually prescribe a proton pump inhibitor. If the cough is caused by vocal cord dysfunction, the doctor will usually prescribe a speech therapy program.

It is important to note that chronic cough in children can be a sign of a more serious underlying condition. Therefore, it is important to see a doctor if your child has a chronic cough.

### Not an ethical record

By [Name] and [Name]

The ethical record of the Philippines is a complex one. On the one hand, the Philippines has a long history of being a torchbearer of environmental protection. The people of the Philippines have always been aware of the fact that the environment is an integral part of their culture and their way of life, and they have always been determined to protect it. On the other hand, the Philippines has also a long history of being a torchbearer of corruption. The people of the Philippines have always been aware of the fact that corruption is a major problem in their country, and they have always been determined to fight it.

The ethical record of the Philippines is a complex one because it is a record of the actions of the people of the Philippines. The people of the Philippines have always been aware of the fact that the environment is an integral part of their culture and their way of life, and they have always been determined to protect it. They have also always been aware of the fact that corruption is a major problem in their country, and they have always been determined to fight it.

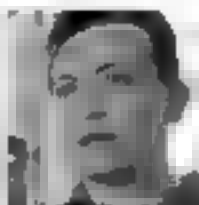

Therefore, the ethical record of the Philippines is a record of the actions of the people of the Philippines. It is a record of the actions of the people who have always been aware of the fact that the environment is an integral part of their culture and their way of life, and who have always been determined to protect it. It is also a record of the actions of the people who have always been aware of the fact that corruption is a major problem in their country, and who have always been determined to fight it.

4. *Interpretation of the Results*  
The hypothesis that the effect of the  
MSE on the MSE is positive is supported  
at the 5% level of significance.  
The effect of the MSE on the MSE is  
positive and significant at the 5% level.

### All-Star event goes for three

ms. frag. 1.1.10.1.2

Figure 1 consists of four scatter plots arranged in a 2x2 grid. Each plot has 'Number of children' on the x-axis and 'Number of children who are not in school' on the y-axis. The top-left plot shows a positive correlation for the total number of children. The top-right plot shows a positive correlation for the number of children who are not in school. The bottom-left plot shows a negative correlation for the number of children who are in school. The bottom-right plot shows a positive correlation for the number of children who are in school.

# Russia readies grand funeral for Yeltsin

By The Associated Press

RUSSIA'S PRESIDENT PUTIN (center) leads a procession of Yeltsin's funeral cortege in Moscow.

By The Associated Press

MOSCOW (AP) — Russian President Vladimir Putin led a procession of Boris Yeltsin's funeral cortege in Moscow on Tuesday, marking the end of a long and turbulent political career for the former president.

Yeltsin, who served as president from 1999 to 2000, died on Monday at the age of 76. His death came after a long battle with cancer.

Putin, who became president in 2000, led the procession through the streets of Moscow, surrounded by thousands of people. The cortege included members of the Russian government, military officials, and members of the Yeltsin family.

The funeral will be held on Wednesday at the Moscow Kremlin. It is expected to be a grand affair, with many guests from around the world.

## Car bomb kills 9 US soldiers

Manila, Philippines (AP) — A car bomb exploded in a crowded market in Manila, Philippines, on Saturday, killing nine US soldiers and wounding 15 others.

The explosion occurred at about 10:30 a.m. in a busy market area near the US military base in Manila. The bomb was hidden in a car that was driving through the market.

The US military base in Manila is one of the largest US military bases in the Philippines. It is home to about 10,000 US soldiers and their families.

The explosion occurred in a crowded market area near the US military base in Manila. The bomb was hidden in a car that was driving through the market.

Smoke rises from the wreckage of a car that exploded in a crowded market in Manila, Philippines, on Saturday.

## China firm sets Shanghai-Cebu flights in June

By [Name] - Manila

MANILA, Philippines (AP) — A Chinese airline is planning to start flights from Shanghai to Cebu in June, according to a source familiar with the airline's plans. The airline, which is not named, is expected to operate the flights twice a week. The flights are expected to be operated by a Boeing 777-300ER. The airline is expected to be a member of the SkyTeam alliance.

Sumang, who was in office at PIA, said the airline is expected to start flights in June.

Figure 1 consists of four bar charts arranged in a 2x2 grid, labeled 'April', 'May', 'June', and 'July'. Each chart displays the percentage of total catch for four fish species: Herring, Sprat, Mackerel, and Cod. The y-axis for each chart ranges from 0 to 100. The legend indicates that the top bar in each chart represents Method 1 and the bottom bar represents Method 2. The data shows varying catches for different species and methods across the months.

Month	Species	Method 1 (%)	Method 2 (%)
April	Herring	~85	~15
	Sprat	~10	~90
	Mackerel	~10	~90
	Cod	~10	~90
May	Herring	~85	~15
	Sprat	~10	~90
	Mackerel	~10	~90
	Cod	~10	~90
June	Herring	~85	~15
	Sprat	~10	~90
	Mackerel	~10	~90
	Cod	~10	~90
July	Herring	~85	~15
	Sprat	~10	~90
	Mackerel	~10	~90
	Cod	~10	~90

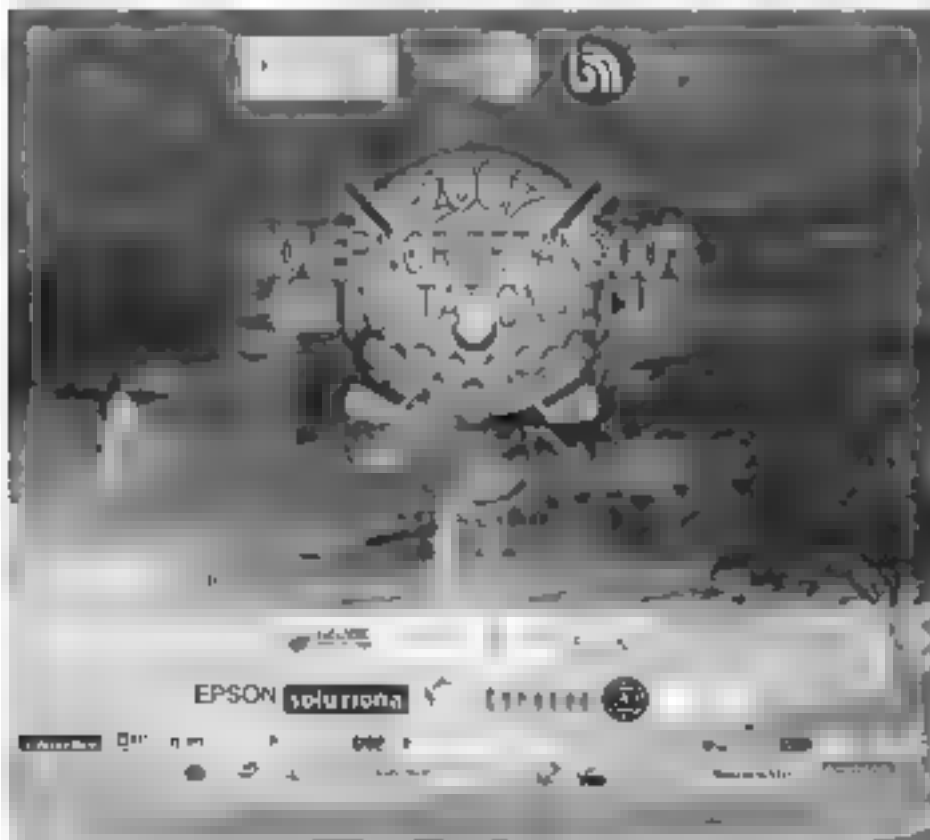

# Public sector posts first surplus since '97 Asian crisis

By Harvinder K. Bhatia

THE GOVERNMENT OF INDIA has posted a surplus of Rs 1,000 crore (US\$200 million) for the first time since the Asian crisis in 1997, according to the annual financial statement of the government for 2002-03. The surplus was achieved despite a significant increase in the government's expenditure on social welfare and infrastructure projects. The government's revenue also increased significantly, primarily due to higher tax collections. The surplus is a testament to the government's fiscal discipline and its ability to manage the economy effectively during a period of global uncertainty.

## China firm sets

Yanming Corp. has set a new record for the highest value of a P-H P.M. (Public Health) deal, according to the company's latest financial statement. The deal, which was announced in late 2002, involved the acquisition of a large stake in a major Chinese pharmaceutical company. The transaction was valued at over \$1 billion, making it one of the largest deals in the industry. Yanming Corp. is a leading player in the P-H P.M. market, and this deal further solidifies its position as a major force in the industry. The company's management expressed confidence in the deal and its potential for long-term growth. The deal is expected to result in significant synergies and cost savings, which will benefit the company's shareholders.

# MOTORING

How much more can you get for your money?

Editor: Cesar D. Placeres

 Updated with more  
 more models.

The new Kia Carens is a more powerful, more spacious, more comfortable and more stylish than the previous model.

## Is Kia Carens worth your P818,000?

Best value for money by Cesar D. Placeres

I have been driving the Kia Carens for a while now and I can say that it is a very good car. It is spacious, comfortable, and has a lot of features. The price is also very reasonable for what you get. I would definitely recommend it to anyone looking for a reliable and comfortable car.

Figure 1. A schematic diagram of the experimental setup. The subject is seated in a chair, viewing a video screen. The screen displays a target (a small circle) and a starting point (a larger circle). The subject's hand is positioned at the starting point. The distance between the starting point and the target is labeled as 'D'. The subject is instructed to move their hand from the starting point to the target. The video screen is connected to a computer system, which records the hand's position and movement time.

# A sleek and sexy thriller

But it collapses under too many holes

THEY SAY IT'S THE BEST OF TIMES for the action-thriller genre. And it's true: In the past few years, the genre has produced some of the most entertaining and profitable films in Hollywood. But the genre is also in a bit of a rut, with many of the recent offerings feeling like variations on a theme.

**Paula L. Latham, PhD**

the authors of the book, George Krieger, Jr., Stuart J. Liebowitz, and David L. Foray, are all economists with considerable experience in the field. The book is written in a clear, concise, and accessible style, and it is a pleasure to read. The book is a valuable addition to the literature on the economics of the environment, and it is highly recommended to all economists and students of the field.

**Case History**

[illegible]

Public Engagement is now  
part of ABC's DNA!

the 1990s, a number of countries have begun to experience a decline in the number of people aged 15 years and under. In many cases, the decline is due to a combination of factors, including a decline in fertility rates, a decline in infant mortality rates, and a decline in the number of people aged 15 years and under who are in the labor force.
